Folks - the San Jacinto PRPs are proposing to do the fate & transport model without the high-flow data due to the drought; please consider the letter attached below so we can discuss this. I will be contacting you to get your input.

Thanks,

Gary Miller, P.E.

Subject: San Jacinto Fate and Transport Field Work Letter

Gary – Please review the attached letter and give me a call to discuss at your earliest convenience. Other issues that we need to resolve include getting an approval letter from you on the submittal of the fate and transport modeling report in February, 2012 as outlined in our letter sent to you on July 21, 2011 (also attached for your convenience), and conducting the next fate and transport workshop by a web-x conference on November 3, 2011. We will be sending hard copies of the ADCP recovery letter to you by overnight delivery.

Thanks,
David
